

Stalling and Camping Information

Due to the amount of rain that Valley City has received in recent days, the area west of the barn entrance is too muddy for driving rigs on or stalling horses. The “outside stalls” will be set up in the South Building.

When unloading your horses, please be respectful of the limited amount of space available on the north side of the building as this is also where many electrical / camping spots are located.

Please unload as quickly as possible and move your rig to your parking spot to free up any congested areas.

If anyone is planning to arrive early, please let us know. You can email Ronda at srrrcstalls@outlook.com or send a text to 701-371-7411.

The **“outdoor stalls”** have been set up in the South Building. At this time I don’t have a map of the stall layout, but I will be tagging stalls on Friday morning so you should be able to find your assigned numbers.

You will only be able to enter/exit this building through the west doors. Please do not force or break any locks or doors. A contact number will be posted if you need assistance with any building issues.
